2009 Allegro/Reformer Series Information

Allegro/Reformer Series

Polestar Pilates fitness programs provide instruction in Pilates principles, techniques and practice with emphasis on group dynamics for Mat or Allegro Reformer.

The Fitness Program is designed for personal trainers and group exercise instructors. It is also appropriate for instructors of movement arts such as dance, yoga, and Tai Chi, as well as practitioners of somatic movement such as Feldenkrais® and Alexander® Techniques. These programmes enable fitness professionals to incorporate Polestar Pilates-evolved exercises into their training regimens. Programme design and exercise sequencing are addressed for group formats and one-on-one training. Theory and practice of Polestar principles and instruction techniques are applied to each exercise. Verbal, tactile and combined cueing practices are addressed to facilitate motor learning.

The Allegro/Reformer Series is comprised of four two-day courses. The courses must be taken in the following order: P-F, A-1, A-2, A-3.

Pre-requisites:

- Certified fitness instructor or instructor of movement arts (e.g. yoga, tai Chi, practitioners of somatic movement)
- One semester of basic anatomy/physiology or equivalent
- 25 hours of private or group Pilates classes (*to be completed preferably with a Polestar certified practitioner prior to course commencement*)

PF - Polestar Pilates Fitness Principles (2-days, 16 hours)

This non-apparatus course introduces current research in movement science, motor learning, bioenergetics, and communication science to instructional practice through six basic movement principles which are used throughout the Polestar Pilates curriculum. Tactile, verbal and imagery cues are integrated with the Pilates exercises. This course introduces Polestar Pilates Screening™, which includes postural evaluation and functional testing, to prepare you to properly design a plan to implement Pilates exercises for clients. This unique component significantly enhances decision-making skills as a Pilates practitioner.

For those participants undertaking more than one series, it is only required to complete P-R/P-F once.

A1 to A3 (three 2-day courses of 16 hours per course)

Polestar Pilates Allegro program provides instruction in Pilates principles, techniques and practice with emphasis on group dynamics for the Pilates Allegro. After the Pilates Principles for Fitness course (PF), the Pilates Allegro program continues with three 2-day courses scheduled approximately one month apart. The time between courses allows you to practice and become comfortable with the material before continuing to the next course.

The principles learned in PF will be applied throughout the three courses and you will learn the following:

1. Allegro exercises for beginning through advanced levels
2. Dynamics of group training
3. Program design and exercise sequencing
4. Advanced cueing skills
5. Exercise modifications for a variety of populations

NOTE: If completing the full Rehab or Studio series, only Modules A2 and A3 are required.

All Polestar Pilates courses are recognised by the Pilates Alliance of Australasia and Fitness Australia
