

Dear Polestar graduates and certified practitioners,

It is time for re-qualification for all individuals who graduated or certified prior to the year 2002. It is important that we maintain high standards in the Pilates industry. Polestar Pilates Education continues to improve and develop its curriculum and examination process. Like most high-quality education programs, re-qualification is an essential part of maintaining skills and quality of care. Polestar's certifications/qualifications are valid for five years, after which time re-qualification is required.

Included in this package is a fact sheet, application, and payment form. All applications must be submitted to the appropriate Polestar office or licensee. Graduates from US, Canada and countries that do not participate under one of our licensees will submit their applications directly to Polestar Education in Miami. Students who work under one of our international licensees will turn in their application to that licensee. When your application is approved you will receive a new certificate valid for 5 years.

Please pay attention to the due dates to avoid any late fees and to expedite receipt of your new certificate. Please feel free to contact Polestar Headquarters or your licensee regarding this process.

As you know, Polestar has continued to raise the bar in all of our education products. We thank you for your feedback on how we can continue to make our curriculum better.

Sincerely,

Brent D. Anderson, PhD, PT, OCS
President

Polestar Education supports the national Pilates certification examination established in 2005 through the Pilates Method Alliance (PMA), which will standardize the quality of Pilates practice. As a result, in the United States, Polestar will grant a diploma to students meeting graduation requirements. Polestar graduates will be eligible to sit for the national certification exam through the PMA. For details on the PMA's certification exam, please visit www.pilatesmethodalliance.org.

As there is not yet a standard international certification examination, we will continue to offer certification exams for participants in non-US countries.

Polestar Education will regard Polestar US students who have completed all graduation requirements as having gained the same qualification as someone certified internationally through Polestar Education.

Polestar Pilates Education continues to improve and develop its curriculum and examination process. Like most high-quality education programs, re-qualification is an essential part of maintaining skills and quality of care. Polestar's certifications are valid for five years, after which time re-qualification is required.

All Polestar Practitioners certified prior to 2002 should submit their re-qualification application by November 1, 2007
